Full Examples

We list below a few fully annotated examples. These examples also include metadata information, such as the speaker's name or the date of the session, added during a post-processing step. The metadata was not available to the annotators during the annotation process, ensuring that their judgments remained unbiased, but it can be incorporated later to enrich the annotation.

Examples

1. במסגרת רפורמות אלו נקבע תעריף אזורי אחיד עם מעברים חופשיים במשך 90 דקות, כל זאת באזורים. *As part of these reforms, a uniform regional rate was established with free passes for 90 minutes, all in the aforementioned areas, Haifa, Gush Dan and Jerusalem.*

check worthiness score = worth checking

claim type = Current laws or rules of operation

factuality profile = (ציפי חוטובלי) *'Deputy Minister of Transport and Road Safety Tzipi Hotobli'*, CT+)

agency agent-less = passive w/o by-clause

stance confidence level = high, type = epistemic, polarity = (positive,)

quantity exp = 90, accuracy = accurate

entity name = חיפה *'Haifa'*, type = GPE

entity name = גוש דן *'Gush Dan'*, type = GPE

entity name = ירושלים *'Jerusalem'*, type = GPE

2. *Four subcommittees have been appointed and we are supposed to submit the recommendations by the end of January.*

check worthiness score = worth checking

claim type = Quantity in the past or present

factuality profile = (דוד צור) *'Chairman David Tzur'*, CT+)

agency agentless = passive w/o by-clause

stance confidence level = high, type = epistemic, polarity = (positive)

quantity exp = ארבע *'four'*, accuracy = accurate

check worthiness score = worth checking

claim type = Current laws or rules of operation

factuality profile = (דוד צור) *'Chairman David Tzur'*, CT+)

agency agent = אנחנו *'we'*, position = subject, animacy = human, morphology = 1pl

stance confidence level = high, type = epistemic, polarity = (positive,)

entity name = ינואר *'January'*, type = TIMEX

timeExp token = ינואר *'January'*, timeExp = 2014:01:31:::

3. אני חושב שזה כן נכון וראוי, כמו שאתה אמרת, להשאיר מתוך האנשים האלה שעמדו בכישורים והוועדה. *I think it is indeed correct and proper, as you said, to leave out of these people who met the qualifications and the committee located them without the direct influence of the minister, any consideration for the right mix.*
 check worthiness score = not a factual claim
 claim type = Personal experience
 factuality profile = *Communications Minister Gilad Erdan*, PR+)
 agency agent = אני (גלעד ארדן) *I (Gilad Erdan)*, position = subject, animacy = human, morphology = 1sg
 stance confidence level = mid, stance type = effective, polarity = (positive, כן 'indeed'), reference = ('as you said', quoting)
4. עובדה היא שציבור גדול, אולי ברובו מהציבור החרדי, מעדיף ללכת למוקד של יד שרה, משיקולים שונים. *The fact is that a large public, perhaps mostly from the ultra-orthodox public, prefers to go to the Yad Sara center, for various reasons - both medical and halachic.*
 check worthiness score = worth checking
 claim type = Quantity in the past or present
 factuality profile = *Yoav Ben-Tzur (Shas)*, CT+)
 agency agent-less = nominal sentence
 stance confidence level = high, stance type = epistemic, polarity = (positive,) hedge = 'large public' ציבור גדול
 hedge = 'perhaps' אולי
 entity name = *Yad Sara*, type = ORG
5. *In May of this year we had 43 outbreak cases, and in 2017 in May a year ago there was one case.*
 check worthiness score = worth checking
 claim type = Quantity in the past or present
 factuality profile = *Yael German (Yesh Atid)*, CT+)
 agency agent-less = nominal sentence
 stance confidence level = high, stance type = epistemic, polarity = (positive,) quantity exp = 43, accuracy = accurate
 quantity exp = אחד 'one', accuracy = accurate
 entity name = מאי 'May', type = TIMEX
 timeExp token = מאי השנה 'May of this year', timeExp = 2018:05:::
 timeExp token = במאי 2017 '2017 in May', timeExp = 2017:05:::
6. *I want him to submit a building permit.*
 check worthiness score = not worth checking
 claim type = Other type of claim
 factuality profile = *Bezael Smotrich (The Jewish Home)*, CT+)
 ESP token = רוצה 'want', type = SIP
 agency agent = אני (בצלאל סמוטריץ') *I (Bezael Smotrich)*, position = subject, animacy = human, morphology = 1sg
 stance confidence level = high, type = effective, polarity = (positive,)
7. אני מניח שאתם זוכרים שכאשר כיהנתי כחבר כנסת אחד הנושאים המרכזיים שעסקתי בו זה המאבק בתאונות. *I assume you remember that when I served as a member of the Knesset, one of*

the main issues I dealt with was the fight against road accidents.'

check worthiness score = worth checking

claim type = Personal experience

factuality profile = (השר לביטחון הפנים גלעד ארדן) 'Minister of Internal Security Gilad Erdan', PR+)

ESP token = מניח 'assume', type = SIP

ESP token = זוכרים 'remember', type = SIP

agency agent = אני גלעד ארדן 'I (Gilad Erdan)', position = subject, animacy = human, morphology = 1sg

stance confidence level = mid, stance type = epistemic, polarity = (positive,)

hedge = מניח 'assume'

quantity exp = אחד 'one', accuracy = accurate
